

CENTRE QUAKER de CONGÉNIÉS programme 2008-9

This programme includes activities designed primarily for paying guests resident at the Centre. To book for an event, please use the usual booking form. The programme is being developed during 2008/9 and some timings may change. Please enquire for more up-to-date information.

Some of the activities listed are 'self-drive' – that is, they can be undertaken independently by guests using itineraries and materials which we provide as part of the price of the holiday. They are listed at different times because these are the earliest at which the itineraries will be available. Self-drive activities can also be booked as guided tours (for which we provide a vehicle and driver/guide) if a minimum of 8 people register.

2008

MAY- JUNE Self-drive "Bridges and Viaducts in the Massif Central, France"
